---

Management is responsible for the preparation of the interim condensed consolidated financial information that presents fairly the financial position of JSC Halyk Bank (the “Bank”) and its subsidiaries (collectively – the “Group”) as at 31 March 2025, and the related interim condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the three months then ended, in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”).

In preparing the interim condensed consolidated financial information, management is responsible for:

- Properly selecting and applying accounting policies;
- Presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Providing additional disclosures when compliance with the specific requirements in IAS 34 are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group's consolidated financial position and financial performance; and
- Making an assessment of the Group's ability to continue as a going concern.

Management is also responsible for:

- Designing, implementing and maintaining an effective and sound system of internal controls, throughout the Group;
- Maintaining adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the consolidated financial position of the Group, and which enable them to ensure that the interim condensed consolidated financial information of the Group comply with IAS 34;
- Maintaining accounting records in compliance with the Republic of Kazakhstan legislation;
- Taking such steps as are reasonably available to them to safeguard the assets of the Group; and
- Preventing and detecting fraud and other irregularities.

The interim condensed consolidated financial information of the Group for the three months ended 31 March 2025 was authorized for issue by the Management Board on 15 May 2025.

## REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

To the Shareholders and Board of Directors of JSC Halyk Bank

### Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of JSC Halyk Bank and its subsidiaries (the "Group") as at 31 March 2025 and the related interim condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the three months then ended, and selected explanatory notes. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34 *Interim Financial Reporting*.

## **1. Principal activities**

JSC Halyk Bank (the “Bank”) and its subsidiaries (collectively, the “Group”) provide corporate and retail banking services principally in Kazakhstan, Georgia and Uzbekistan, leasing services in Kazakhstan, as well as asset management, insurance and brokerage services in Kazakhstan. The primary state registration of the Bank with the authorities of justice of Kazakhstan was made on 20 January 1994. The Bank operates under license No. 1.2.47/230/38/1 for carrying out banking and other operations and activities on the securities market, renewed by the Agency of the Republic of Kazakhstan for Regulation and Development of the Financial Market on 23 June 2023. The Bank is a member of the obligatory deposit insurance system provided by the JSC Kazakhstan Deposit Insurance Fund.

The Bank’s primary business includes originating loans and guarantees, collecting deposits, trading in securities and foreign currencies, executing transfers, cash and payment card operations as well as rendering other banking services to its customers. In addition, the Bank acts as a non-exclusive agent of the Government of the Republic of Kazakhstan in channeling various budgetary payments and pensions through its nationwide branch network.

The Bank has a primary listing with the Kazakhstan Stock Exchange (“KASE”) and Astana International Exchange. The Bank’s Global Depository Receipts (“GDRs”) are primary listed on the London Stock Exchange, KASE and Astana International Exchange.

The Group is ultimately controlled by Timur Kulibayev and his wife Dinara Kulibayeva via JSC HG Almex.

As at 31 March 2025 and 31 December 2024, the Bank operated through its head office in Almaty and its 25 regional branches, 119 sub-regional offices and 398 cash settlement units located throughout Kazakhstan. The address of the Bank’s registered office is 40 Al-Farabi Avenue, Almaty, A26M3K5, Republic of Kazakhstan.

As at 31 March 2025, the number of the Group’s employees was 16,523 (31 December 2024 – 16,656).

The interim condensed consolidated financial information of the Group for the three months ended 31 March 2025 was authorized for issue by the Management Board on 15 May 2025.

### **Legal proceedings**

From time to time and in the normal course of business, claims against the Group are received from customers and counterparties. Management is of the opinion that no material unaccrued losses will be incurred and accordingly no provision has been made in this interim condensed consolidated financial information.

### **Operating environment**

Kazakhstan is one of the emerging economies, which are often characterized by high levels of GDP growth, an emerging financial infrastructure, and a significant share of state participation. At the same time, emerging markets are subject to political, social, and legislative risks that differ from those of more developed markets. Kazakhstan is integrated into the global economy, while geographically adjacent to large economic markets, thereby occupying the position of the main “transit hub” in the Central Asian region.

Consolidated Financial Information  
for the Three Months ended 31 March 2025 (unaudited) (continued)  
(millions of Kazakhstani Tenge)**

---

Due to the fact that the economy of Kazakhstan is export-oriented, changes in world prices for raw materials have a significant impact on it. In addition to world prices for energy resources, the further development of the Kazakh economy also largely depends on fiscal discipline and the geopolitical situation in the region.

During the first quarter of 2025, the average price of Brent oil was around 74.98 USD per barrel (74.03 USD per barrel during the fourth quarter of 2024). According to the short-term economic indicator, for the period from January to March 2025, the economy of Kazakhstan grew by 8.3% compared to the same period of the previous year. Annual inflation in 1<sup>st</sup> quarter of 2025 amounted to 10.0% (2024: 8.6%).

The Committee on Monetary Policy of the National Bank of the Republic of Kazakhstan ("NBRK") in March 2025 decided to increase the base rate to the level of 16.5% per annum with the corridor +/- 1 pp. This decision was made against the backdrop of accelerating inflation since December 2024, which was due to a negative external inflationary background, stable consumer demand, and a high level of budget expenditures. Additional inflationary pressure in the first quarter of 2025 was driven by rising inflation expectations related to upcoming fiscal reforms and the liberalization of prices for fuels and utilities. These conditions create the preconditions for maintaining a tight monetary policy in Kazakhstan.

Management of the Group is monitoring developments in the economic and political situation, including any sanctions related risks, and taking measures it considers necessary to support the sustainability and development of the Group's business for the foreseeable future.

On 12 July 2023, the Law of the Republic of Kazakhstan "On the Return of Illegally Acquired Assets to the State" (the "Law") was signed. The Law entered into force on 24 July 2023, with the exception of Articles 7, 12-31, which entered into force on 12 September 2023.

The Asset Recovery Committee of the Prosecutor General's Office of the Republic of Kazakhstan (the "Committee") is the authorised body for asset recovery. The objectives of the Committee are the identification and return of illegally acquired assets, the development of international legal cooperation in this area, the identification and elimination of the causes and conditions that contributed to the illegal concentration of economic resources and the illegal withdrawal of assets, as well as other tasks in accordance with the legislative acts of the Republic of Kazakhstan, acts of the President of the Republic of Kazakhstan. The Group's management believes that this Law does not have a material impact on the Group's activities, including the Group's loan portfolio.

## 2. Basis of presentation

### Accounting basis

The interim condensed consolidated financial information of the Group has been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”). This interim condensed consolidated financial information has been prepared assuming that the Group is a going concern, as the Group have the resources to continue in operation for the foreseeable future. In making this assessment, the management have considered a wide range of information in relation to present and future economic conditions, including projections of cash flows, profit and capital resources.

The interim condensed consolidated financial information is unaudited and does not include all the information and disclosures required in the annual financial statements. The Group omitted disclosures, which would substantially duplicate the information contained in its audited annual consolidated financial statements for the year ended 31 December 2024 prepared in accordance with International Financial Reporting Standards (“IFRS”), such as accounting policies and details of accounts, which have not changed significantly in amount or composition. Additionally, the Group has provided disclosures, where significant events have occurred subsequent to the issuance of the Group’s annual consolidated financial statements for the year ended 31 December 2024 prepared in accordance with IFRS.

Management believes that the disclosures in this interim condensed consolidated financial information are adequate to make the information presented not misleading if this interim condensed consolidated financial information is read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2024 prepared in accordance with IFRS. In management’s opinion, this interim condensed consolidated financial information reflects all adjustments necessary to present fairly the Group’s financial position, results of the operations, changes in shareholders’ equity and cash flows for the interim reporting periods.

This interim condensed consolidated financial information is presented in millions of Kazakhstani Tenge (“KZT” or “Tenge”), except for earnings per share amounts and unless otherwise indicated.

### Consolidated subsidiaries

During the three months ended 31 March 2025, there were no other significant changes in the structure of the Group compared to the structure as at 31 December 2024.

### 3. Significant accounting policies

The same accounting policies, presentation and methods of computation have been followed in this interim condensed consolidated financial information as were applied in the preparation of the Group's consolidated financial statements for the year ended 31 December 2024.

#### Adoption of new and revised Standards

##### New and revised IFRS Standards that are effective for the current year

The following amendments and interpretations are effective for the Group beginning 1 January 2025:

<i>Amendments to IAS 21 – Lack of Exchangeability</i>	1 January 2025
---	----------------

The above standards and interpretations were reviewed by the Group's management and determined to not have a significant effect on the Interim condensed consolidated financial information of the Group.

##### New and revised IFRS Standards in issue but not yet effective

At the date of authorisation of this financial information, the Group has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

<u>New or revised standard or interpretation</u>	<u>Applicable to annual reporting periods beginning on or after</u>
<i>IFRS 18 – Presentation and Disclosures in Financial Statements</i>	1 January 2027
<i>IFRS 19 – Subsidiaries without Public Accountability: Disclosures</i>	1 January 2027

The Group is currently assessing the potential impact of IFRS 18 and IFRS 19. It is not possible to make a reasonable estimate of the financial effect until the Group has completed its analysis.

### 4. 4a. Significant accounting estimates

In preparing this interim condensed consolidated financial information, the significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were consistent with those that applied to the Group's annual consolidated financial statements for the year ended 31 December 2024 prepared in accordance with IFRS. There have been no changes to the basis upon which the significant accounting estimates have been determined compared with 31 December 2024, except for those disclosed in this Note below.

#### *Measurement of allowances for expected credit losses ("ECL")*

Given that the Group has a sufficient amount of equity capital and liquid assets, a significant deterioration in the Group's financial position and violation of prudential norms and requirements is not expected.

**Restructured and modified loans to customers**

The Group derecognises a financial asset, such as a loan to a customer, if the terms of the contract are renegotiated in such a way that it effectively becomes a new loan and the difference is recognized as a gain or loss on derecognition before an impairment loss is recognized. On initial recognition, loans to customers are classified in Stage 1 for the purpose of estimating expected credit losses, unless the loan originated is considered POCI. If the modification does not result in a significant change in cash flows, then derecognition does not occur. No material modification gain/(loss) of loans to customers was recognized in the first quarter of 2025 and 2024.

As at 31 March 2025, loans from JSC Entrepreneurship Development Fund DAMU (“DAMU”) included long-term loans of KZT 84,830 million (31 December 2024 – KZT 84,001 million) at a 1.0% - 4.5% interest rate maturing in 2025-2035 with an early recall option. These loans were received in accordance with the Government program (“the Program”) to finance small and medium enterprises (“SME”) operating in certain industries. According to the loan agreements between DAMU and the Group, the Group is responsible to extend loans to SME borrowers, eligible to participate in the Program, up to 10 years at a 5.0% interest rate.

As at 31 March 2025, loans from JSC Development Bank of Kazakhstan (“DBK”) included long-term loans of KZT 36,990 million (31 December 2024 – KZT 36,982 million) at a 2.0% interest rate maturing in 2029 – 2037, to finance large corporate enterprises operating in manufacturing industries, as well as a long-term loan of KZT 43,672 million (31 December 2024 – KZT 43,623 million) at a 1.0% interest rate maturing in 2035, to finance the purchase of cars by the Group’s retail customers. According to the loan agreement between DBK and the Group, the Group is responsible to extend loans to corporate borrowers, eligible to participate in the Program, up to 10 years at a 6.0% interest rate, and to retail borrowers – up to 5 years at a 4.0% interest rate.

As at 31 March 2025, loans from JSC Agrarian Credit Corporation under the “Ken-Dala” program included short-term loans in the amount of KZT 31,623 million (31 December 2024 – KZT 65,378 million) at 1.5% interest rate with a maturity date 10 March 2026. Loans must be used for subsequent lending to subjects of the agro-industrial complex at 4.0%-5.0% interest rate for the final borrower, with a loan period until 1 November 2025. According to the loan agreements between JSC Agrarian Credit Corporation and the Group, loans are provided to replenish working capital for spring field and harvesting work.

As at 31 March 2025, loans from JSC Industrial Development Fund (“IDF”) included long-term loans of KZT 14,604 million (31 December 2024 – KZT 15,631 million) at 1.0% interest rate maturing in 2030 to finance the purchase of domestically produced vehicles by the Group’s retail customers. According to the loan agreement between the IDF and the Group, the Group is responsible for providing loans to retail business borrowers at a rate of 4.0% with a maturity of no more than 7 years. On 23 April 2024, the IDF and the Group signed Supplementary Agreement #4, which changed the terms and conditions regarding the termination of financing by second-tier banks of end borrowers under the revolving mechanism and the reduction of the loan term until 31 July 2030.

The management of the Group believes that there are no other similar financial instruments and, due to their special nature, these loans from DAMU, IDF, JSC Agrarian Credit Corporation and DBK represent separate segments in the lending market for agricultural entities, SME and retail lending. As a result, the loans from DAMU, IDF, JSC Agrarian Credit Corporation and DBK were received as part of an orderly transaction and, as such, were recorded at fair value at the date of recognition, which was determined to be the cash consideration transferred to the customers.

Details of transferred financial assets that are not derecognised in their entirety as at 31 March 2025 and 31 December 2024, are disclosed below.

In accordance with the contractual terms of the loans from certain OECD based banks, the Group is required to maintain certain financial ratios. Loans under repurchase agreements are used by the Group to provide current cash flows in KZT within the Group's operating activities. The Group regularly uses this type of instrument to attract short-term liquidity and plans to continue raising funds through loans under repurchase agreements when necessary.

Certain of the Group’s outstanding financing agreements include covenants restricting the Group’s ability to create security interests over its assets. Should the Group default under these covenants, this could result in cross-accelerations and cross-defaults under the terms of the Group’s other financing arrangements.

The management of the Group believes that as at 31 March 2025 and 31 December 2024 the Group was in compliance with covenants.

Deferred income tax benefit	(629)	(12,726)
<b>Total income tax expense</b>	<b>50,985</b>	<b>30,629</b>

The income tax rate for Kazakhstan legal entities was 20% for the three months ended 31 March 2025 and 2024. According to the provisions of the Tax Code of the Republic of Kazakhstan, income on government securities is not subject to CIT.

The effective income tax rate differs from the statutory income tax rate.

The Group has offset deferred tax assets and liabilities on the interim condensed consolidated statement of financial position where a right of offset existed.

Management believes that the Group is in compliance with the tax laws affecting its operations; however, the risk remains that relevant authorities could take differing positions with regard to interpretive issues.

## 16. Equity

Repurchased securities are held as treasury shares as a reduction of shareholders' equity and, in accordance with the laws of the Republic of Kazakhstan, cannot be cancelled. At the same time, the repurchased treasury shares of the Bank are not included in the calculation of basic and diluted earnings per share ("EPS") and dividend per share. In the event that the Bank sells the repurchased shares, the standard procedure established by the legislation of the Republic of Kazakhstan for declared but not placed shares will be applied.

### Common shares

As at 31 March 2025 and 31 December 2024, share capital comprised KZT 209,027 million. As at 31 March 2025, the Group held 2,583,028,715 shares of the Group's common shares as treasury shares at KZT 267,732 million (31 December 2024 – 2,567,570,166 shares at KZT 263,625 million).

Each common share outstanding is entitled to one vote and dividends. Treasury shares are not entitled to any vote or dividends.

### Share premium reserve

Share premium reserve represents an excess of contributions received over the nominal value of shares issued.

## 17. Commitments and contingencies, provisions

The Group's financial commitments and contingencies comprised the following:

	31 March 2025 (unaudited)	31 December 2024
Guarantees issued	976,872	984,144
Commercial letters of credit	110,184	113,993
Commitments to extend credit	83,438	109,307
<b>Financial commitments and contingencies</b>	<b>1,170,494</b>	<b>1,207,444</b>
Less: cash collateral against letters of credit	(29,043)	(37,606)
Less: provisions	(6,490)	(10,964)
<b>Financial commitments and contingencies, net</b>	<b>1,134,961</b>	<b>1,158,874</b>

Guarantees issued represent bank guarantees issued by the Group by order of its clients, and which are in effect as at the reporting date. As at 31 March 2025, uncovered guarantees issued for the ten largest groups of customers/groups of customers accounted for 49% of the Group's total financial guarantees (31 December 2024 – 49%) and represented 15% of the Group's total equity (31 December 2024 – 16%).

Commercial letters of credit represent letters of credit issued by the Group by order of its clients, and under which, as at the reporting date, the payment has not yet been made. As at 31 March 2025, the ten largest unsecured letters of credit accounted for 71% of the Group's total commercial letters of credit (31 December 2024 – 62%) and represented 2% of the Group's total equity (31 December 2024 – 2%).

The Group requires the provision of collateral when originating financial instruments related to borrowing. The exception is when it is determined that there is no need for collateral as a result of an assessment of the borrower's credit risk or an analysis of other deposits held by the Group. Collateral varies and may include deposits held in banks, government securities and other assets.

Provision represents other credit loss expenses against letters of credit and guarantees issued.

### Capital commitments

As at 31 March 2025, the Group had capital expenditures commitments in respect of construction in progress for KZT 18,788 million, of which KZT 14,365 million relates to the construction of the Bank's administrative building in Astana (31 December 2024 – KZT 24,398 million, KZT 19,288 million respectively).

**25. Earnings per share**

Basic and diluted earnings per share are calculated by dividing the net profit for the period attributable to equity holders of the Bank by the weighted average number of participating shares outstanding during the period.

The following table presents basic and diluted earnings per share:

	Three months ended 31 March 2025 (unaudited)	Three months ended 31 March 2024 (unaudited)
<b>Basic and diluted earnings per share</b>		
Net profit for the period attributable to equity holders of the parent	275,016	177,964
Earnings attributable to common shareholders	275,016	177,964
Weighted average number of common shares for the purposes of basic earnings per share	10,872,962,936	10,903,033,835
<b>Basic and diluted earnings per share (in Tenge)</b>	<b>25.29</b>	<b>16.32</b>

As required by KASE rules for listed companies, the book value of one share per each class of shares as at 31 March 2025 and 31 December 2024 is disclosed as follows:

Class of shares	31 March 2025 (unaudited)		
	Outstanding shares	Equity (as calculated per KASE rules)	Book value of one share, in KZT
Common	10,864,516,067	3,265,732	300.6
		<b>3,265,732</b>	
Class of shares	31 December 2024		
	Outstanding shares	Equity (as calculated per KASE rules)	Book value of one share, in KZT
Common	10,879,974,616	3,051,826	280.50
		<b>3,051,826</b>	

Equity attributable to common shares is calculated as the difference between the total equity and total net book value of intangible assets.

The management of the Group believes that it fully complies with the requirement of KASE as at the reporting date.

## 26. Financial risk management

Risk management is fundamental to the Group's banking business and is an essential element of the Group's operations. The main risks inherent to the Group's operations are those related to credit risk, liquidity risk and market/currency risks.

The Group's significant policies and procedures related to financial risk management has not changed during three months ended 31 March 2025 and are disclosed in the annual consolidated financial statements for the year ended 31 December 2024.

### Liquidity Risk

Liquidity risk is the risk associated with the Group's inability to secure sufficient cash to meet its obligations on time. The Group's liquidity risk arises as a result of a discrepancy (mismatch) between the terms of claims on active operations and the maturities of liabilities.

As part of the risk management system, liquidity risk is measured and controlled through the following tools:

- monitoring compliance with regulatory (prudential) liquidity ratios;
- setting and regular monitoring of internal limits and triggers for liquidity risk: risk appetite level, VLARP indicator, limit on GAP gaps, liability concentration limits, indicators of early warning about liquidity risk;
- analysis of contractual maturities (GAP-analysis) and cash flow forecasting, including: planned transactions, projected rollover of attracted customer funds (taking into account the calculation of the stable part of funding);
- analysis of the concentration of funding sources (by largest depositors, by currency, by maturity of funding, by source of funding);
- indicators of early warning about liquidity risk, allowing to monitor and control liquidity risk;
- analysis of the volume of assets that can be used as collateral to raise liquidity;
- developing and regularly testing a contingency financing plan outlining a process for addressing liquidity shortages in emergency situations. The Contingency Funding Plan has been developed to define a set of procedures and activities to facilitate timely response to liquidity stress situations, including those identified as a result of stress testing;
- stress testing of the impact of changes in various macroeconomic and other factors and parameters on liquidity.

In order to manage liquidity risk, the Group analyses the financial assets and liabilities, and obligatory reserves taking into account payment schedules for loans issued to customers. The following tables provide an analysis of financial assets and liabilities grouped on the basis of the remaining period from the reporting date to the earliest of the contractual maturity date or available maturity date, except for financial assets at fair value through profit or loss in the form of securities (excluding derivative financial instruments) which are included in the column “Less than 1 month” as they are available to meet the Group’s short-term liquidity needs.

As at 31 March 2025 and 31 December 2024 the Group complies with main liquidity ratios and regulatory liquidity requirements.

The analysis of liabilities by maturity does not reflect the historical stability of customer current account balances, which have traditionally been repaid over a longer period than indicated in the tables above. In this regard, Management believes that although a substantial portion of current accounts and customer deposits are on demand and mature in less than one month, diversification of these deposits by number and type of depositors, and the past experience of the Group, indicate that these deposits provide a long-term and stable source of funding for the Group. Therefore, an essential part of the Group's current accounts is considered to be stable resources for the purposes of liquidity analysis and management. Additionally, the accumulated gap can be sufficiently covered by refinancing with the repurchase agreements and sale of liquid government and other high-quality rated securities or attracting long-term debt funding on capital markets when necessary.

## **27. Capital risk management**

The Group's capital management objectives, which are a broader concept than the "equity" on the face of the consolidated statement of financial position, are as follows:

- To comply with the capital requirements set by NBRK;
- To safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

The required level of capital is determined during the annual budgeting process, taking into account the above objectives, and is approved by the Management Board and the Board of Directors. As of the current date the capital adequacy of the Group is calculated according to prudential norms set for banks by the Kazakhstan regulatory authority, applying Basel Committee principles and methods.

Currently, regulatory capital is represented by:

- Tier 1 capital, which is required to maintain the normal operating activity of the Group and absorb losses as they arise. It consists of Common Equity Tier 1 capital ("CET 1 capital") and Additional Tier 1 capital, which includes common shares issued by the Group, share premium, retained earnings, other accrued comprehensive income and disclosed reserves and regulatory adjustments (deductions);
- Tier 2 capital, which is required to absorb losses in case of the Group's liquidation. This part of capital consists of instruments issued by the Group and deductions.

Risk-weighted assets are split into five different groups, based on the risk level of the investment and its possible impairment, and weighted according to the nature of and reflecting an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposure, with some adjustments made to reflect the more contingent nature of the potential losses.

## **29. Fair values of financial instruments**

IFRS defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

### **Fair value of the Group's financial assets and financial liabilities measured at fair value on a recurring basis.**

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The table below provides information on how the fair value of these financial assets and financial liabilities is determined by levels of the hierarchy (in particular, the valuation technique and inputs used).

Financial assets and financial liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. Management assessment of the significance of a particular input to the fair value measurements requires judgment, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

The Group considers that the accounting estimate related to valuation of financial instruments where quoted markets prices are not available is a key source of estimation uncertainty because:

(i) it is highly susceptible to change from period to period because it requires management to make assumptions about interest rates, volatility, exchange rates, the credit rating of the counterparty, valuation adjustments and specific feature of the transactions and (ii) the impact that recognizing a change in the valuations would have on the assets reported on its interim condensed consolidated statement of financial position as well as its statement of profit or loss could be material.

**Fair value of financial assets and financial liabilities that are not measured at fair value on a recurring basis (but fair value disclosures are required).**

The following methods and assumptions are used by the Group to estimate the fair value of financial instruments not carried at fair value.

*Amounts due from and to credit institutions*

For assets and liabilities maturing within one month, the carrying amount approximates fair value due to the relatively short-term maturity of these financial instruments. For the assets and liabilities maturing in over one month, the fair value was estimated as the present value of estimated future cash flows discounted at the appropriate period-end market rates.

*Loans to customers*

The estimate was made by discounting the scheduled future cash flows of the individual loans through the estimated maturity using prevailing market rates at the respective period-end.

*Amounts due to customers*

Interest rates charged to customers closely approximate market interest rates and accordingly, the carrying amounts approximate fair values.

*Debt securities issued*

Market values have been used to determine the fair value of debt securities traded on an active market. For other debt securities, the fair value was estimated as the present value of estimated future cash flows discounted at the period-end market rates.

### 30. Related party transactions

Related parties or transactions with related parties are assessed in accordance with IAS 24 “Related Party Disclosures”. Related parties may enter into transactions which unrelated parties might not. Terms, conditions and amounts of related party transactions are usually the same as those between unrelated parties.

When considering each possible related party, the substance of the relationship between the parties is taken into account, and not just their legal form.

During the first quarter of 2025 and 2024, the Group entered into arm-length transactions with entities where the Group’s shareholders were one of the participants. Management believes that any control of these entities is with unrelated parties as per IFRS through the level of holding control or trust management arrangements, which are in compliance with Kazakhstan legislation. As such, these transactions are not disclosed as being with related parties.

The Group had the following balances outstanding as at 31 March 2025 and 31 December 2024 with related parties:
